EDUCATION

Bachelor of AI Engineering
Tanta University
2022 - 2027

SKILLS

- Python
- Python Web Scraping
- Machine Learning
- Deep Learning
- Tensor Flow
- PyTorch

LANGUAGE

- Arabic (Native)
- English

PROFILE

As an AI Engineering student, I'm passionate about using technology to make the world a better place. I specialize in machine learning, Python and its libraries, and web scraping, constantly expanding my knowledge through books and videos. This semester, my team and I built an innovative project that classifies brain tumors and supports affected individuals with a medical chatbot. With a mission to simplify lives and help others, I'm driven to create impactful solutions every step of the way.

COURSES AND BOOKS

- AUTOMATE THE BORING STUFF WITH PYTHON , By : Al Sweigart
- TensorFlow in 1 Day , By : Krishna Rungta
- Machine Learning for Humans , By : Samer Sabri
- DEEP LEARNING A Visual Approach , By : Andrew Glassner
- Python Data Science Handbook , By : Jake VanderPlas
- Deep Learning from Scratch , By : Seth Weidman
